USWAG Comments on the SPCC
Guidance for Regional Inspectors

Dear Sir or Madam:

The Utility Solid Waste Activities Group submits the attached comments on the SPCC Guidance for Regional Inspectors. Our comments address most of chapters of the guidance document and provide citations to the relevant chapters and pages of the guidance for each issue addressed in the comments. We appreciate the opportunity to submit comments on this important document and look forward to continuing to work with EPA in clarifying issues related to the SPCC program. If we can be of further assistance, please contact USWAG Executive Director Jim Roewer (202-508-5645; jim.roewer@uswag.org), or USWAG counsel, Bill Weissman (202-861-3878; william.weissman@dlapiper.com).
